### Force the Dominant Factor.

In a speech delivered in 1896, Lord Dufferin said: "One conviction has been borne in upon me during my long contact with the outside world—that in spite of Christianity, civilization, of humanitarian philosophies, of the lessons of history and the bitter experience of the more recent past, force and not right is the dominant factor in human affairs. . . . It would be madness on our part to be so misled and deluded by that kind of amiable optimism which always prevails among people who have had no personal experience of the real, hard, cruel conditions of national existence, as not to maintain in full vigor, by sea and land, the preparations necessary for our own preservation."

"It just floored him."

### THE RESEMBLANCE.

"Why is a dishonest coal man like the Arabs?"

"What's the likeness?"

"Doesn't he silently steal a weigh?"

### ITS DISPOSITION.

"Why do you call this boat of yours the Carross?"

"Because it is always showing a disposition to hug the shore."

As a medicinal antiseptic for douches in treating catarrh, inflammation or ulceration of nose, throat, and that caused by feminine ills it has no equal. For ten years the Lydia E. ### Millie Was Mixed.

Little Millie's father and grandfather were Republicans; and, as election drew near, they spoke of their opponents with increasing warmth, never heeding Millie's attentive ears and wondering eyes. One night, however, as the little maid was preparing for bed, she whispered in a frightened voice: "Oh, mamma, I don't dare to go upstairs. I'm afraid there's a Democrat under the bed."

### Borneo Pirates.

Brunei, Borneo, is one of the strangest cities in the world. Once the headquarters of the Borneo pirates, it is a kind of eastern Venice, being built entirely over the water. This remarkable city is the capital of the state of Brunei, Borneo. All the houses are built over the River Limbang, constructed on slender piles made from the Nibong palm, a wood that resists the action of water for many years. The inhabitants of Brunei are Malays, Kadayans, Orang-Buskits, and a few Muruts. They earn their living mostly by trading with other tribes in the interior of Sarawak and British North Borneo. Some of them are very skillful brass workers, and the Brunei women make beautiful cloth, interwoven and embroidered with gold thread. Sago is grown in the valleys nearby, and a small quantity of rice is also raised. In the early part of the nineteenth century Brunei was the rendezvous of the dread Borneo pirates, and a market for the slave trade.—Wide World Magazine.

### White Man With Black Liver.

The Liver is a blood purifier. It was thought at one time it was the seat of the passions. The trouble with most people is that their Liver becomes black because of impurities in the blood due to bad physical states, causing Biliousness, Headache, Dizziness and Constipation. Dr. King's New Life Pills will clean up the Liver, and give you new life. 25c. at your Druggist. Advertisement.

### ACTIVITIES OF WOMEN.

Owing to the scarcity of men, London street railway companies are considering employing women as car conductors.

For the first time in the history of Vassar college the ban will be lifted on male visitors on Sunday.

The University of Washington has a fat girls' sorority in which girls must weigh 140 pounds to be eligible to join.

Leaders of women's organizations throughout the world will shortly call an international women's congress to meet in a neutral country for the purpose of discussing just what role women should assume in preventing future wars.

### Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Chill Tonic is equally valuable as a General Tonic because it contains the well known tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

### Care of Children's Teeth.

No care can be too great to bestow upon the teeth of children. Medicines that will bleach the teeth or injure the enamel should be taken, if at all, through a glass tube.

The Quinine That Does Not Affect The Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE. 25c.

### HAVE HOSPITALS FOR HORSES

Animals Wounded at the Front Are Given as Much Care as Circumstances Will Permit.

At the front horses are treated with just the same care and skill as is shown to the soldiers and are given chloroform and other anesthetics before being operated upon by skilled officers. To every division and cavalry brigade is attached a mobile veterinary section, each consisting of one officer and 22 trained men of the A. V. C.

The mobile section is divided into two subsections, one employed in collecting sick and wounded horses from the firing line and other places, while the other branch conveys the patients to the nearest rail head. Thence they are sent by train to the nearest base veterinary hospital, where they are treated according to the nature of their wounds or sickness.

Each hospital has accommodation for some thousand or more cases, and is equipped with every requisite for medical and surgical use. When sufficiently recovered the horses are drafted to the convalescent farm, where the cure is completed.

### Whole Family Dependent.

Mr. E. Williams, Hamilton, Ohio, writes: "Our whole family depend on Pine-Tar-Honey." Maybe some one in your family has a severe cold—perhaps it is the baby. The original Dr. Bell's Pine-Tar-Honey is an every ready household remedy—it gives immediate relief. Pine-Tar-Honey penetrates the linings of the Throat and Lungs, destroys the Germs, and allows Nature to act. At your Druggist 25c.—Advertisement.

### Two Groups of Spiders.

Roughly speaking, spiders may be divided into two groups—the sedentary spiders, who spin a snare for the capture of their prey, and the roving spiders, who employ other methods for obtaining food. To this last class belong the jumping and wolf spiders, both of which present features of considerable interest. The jumping spiders are an important family, numbering several thousand species, but they do not show to advantage in temperate climates; their home is in tropical countries, where they attain a metallic glory of coloring which can vie with the brilliance of the humming birds. The eyesight of these spiders is very keen, and it is a curious fact that certain species can alter the color of their eyes by a movement of the internal mechanism.

### HIS CHICKEN PIE COST \$50

New York Public Service Commissioner Files Unique Expense Voucher—Is Disallowed.

The expense account of the New York public service commissioner was placed before the committee recently. Chairman Van Santvoord recited that Van Santvoord had entered an 80-cent charge for "chicken pie and sundries trifled with" at a cafe in Poughkeepsie. The item was followed by this entry:

"Paid for trained nurse and medical attendance at my house, between 12 a. m. and 7 a. m., made necessary by the last above-mentioned alimentary indulgence—including amount given to charity in expiation of the sin of excessive use of language during said painful experience—\$50."

This explanatory note was attached:

"Because timidity is the better part of graft, no claim for reimbursement is made for this last-mentioned item, but if the honorable comptroller can stretch his conscience to the extent of allowing the claim, deponent will not scruple to receive the amount."

The comptroller's conscience did not stretch. The claim was disallowed.—New York American.

### Man Takes His Own Medicine Is An Optimist.

He has absolute faith in his medicine—he knows when he takes it for certain ailments he gets relief. People who take Dr. King's New Discovery for an irritating cold are optimists—they know this cough remedy will penetrate the linings of the throat, kill the germs, and open the way for Nature to act. You can't destroy a cold by superficial treatment—you must go to the cause of the trouble. Be an optimist. Get a bottle of Dr. King's New Discovery to-day.—Advertisement.

### PROTECTING THE ELK.

The forest service reports that it made two "plants" of elk last year, viz., one of 24 head on the Colorado forest and one of 23 head on the Sopris forest. Since the distribution of elk began three years ago a total of about five hundred head have been planted in 11 national forests by the forest service, the biological survey and certain states, in nearly every case with successful results.—Scientific American.

### THE REASON.

"Will you countenance me in this?"

"Why do you want me to countenance you?"

"Because otherwise I will have to face the consequences."

### A CLOSE SHAVE.

"He says he found it hard to tear himself away from his old home town."

"If a warrant had been served in time he never would have done it, either."

### A CHANGE.

"So your husband can't take the mud baths in Europe this year?"

"No, but he has been trying to get an immunity bath at home."

### STRANGE LOSS.

"William lost almost everything in that illumination scheme."

"That was odd—to experience heavy losses in a light investment."

### KEEPS PUTTING 'EM UP.

"I won't bet with you," said the baker; "you haven't the dough."

"Oh, I guess I can put up the stakes," replied the butcher.

### HIS NAME.

"Matilda's husband, I understand, is crazy about the races."

"Yes; she calls him her better half."
